Through grade-specific remote assemblies, students **explore** their water footprint and **discover** how everyday activities can impact **water quality** and **water supply**.

✓ Includes hands-on activities from building a model aquifer to conducting an investigation of home water use

## Assembly Topics :

- 💧 **7th Grade:** Students receive an introduction to water quality testing and the role they play in protecting the quality, quantity, and availability of our water supply
- 💧 **8th Grade:** Students explore direct and indirect water use and identify solutions to reduce their water footprint

...and more!
